

The Radiance Difference

Radiance Energy offers the most advanced LED technology solutions with the highest energy cost-savings. We specialize in designing and installing customized LED solutions for residential towers, commercial buildings, parkades, sporting arenas, industrial facilities, educational institutions and medical centers. Our success results from our ability to meet and exceed customers' needs.

SOLUTIONS FOCUSED

We work with each client in determining their optimal lighting solutions. We focus on high-value LED products and innovative controls to meet their lighting and budgetary needs.

INDUSTRY BEST SERVICE

Our work is not complete until our customers are fully satisfied with their turnkey LED installation—enjoying their energy savings and eliminating their ongoing maintenance costs.

WE CARE

Radiance Energy cares about the environment and giving back to the community. We foster healthier lighting environments and donate LED lighting through our Green Leaf Program—changing lives by changing light.

LONG TERM WARRANTIES

Radiance provides the longest term warranties in the industry, up to 10 years. Our high quality LED solutions are designed to be maintenance-free and high in energy cost-savings. We also offer full service extended warranty programs.
